Learn the basics, get help and Ride London!

What do we do?

Ride London is a volunteering bike atelier born from bikers in love with the city and the lifestyle that come together with the daily rides. It's a collective, non-profit organization, self-managed by the users and inspired on other similar ideas around the globe.

We are offering an inclusive and collaborative space, in which we share tools and knowledge to make your experience richer. We won't fix it for you, we will otherwise teach you how to make it!
